

**Antonio Arico'**

While graduating from the Polytechnic School of Milan and Alta Scuola Politecnica, he studied metal & jewellery design at the Duncan of Jordanstone College of Art in Scotland, product design at the Royal Melbourne Institute of Technology in Australia, and traditional furniture design in Spain.

As a member of Deepdesign Studio, Antonio Aricò worked for the Barilla Group, Nivea Beiersdorf, Lavazza, Serralunga and Skitsch. In 2010, he participated in the 'L' Anima Sensibile Delle Cose' at the Triennale Design Museum. Since 2011, Antonio has focused on his personal designs and collections, concentrating on just a few professional relationships with big Italian clients . Always working and playing, loving and caring, Antonio has developed his strong passion over many years and has already been shown around Europe, in Germany at the DMY, in Italy during the Salone Del Mobile in Milan, in Turin for the WABI SABI show, in Poland in the ceramic museum of Design Centrum Kielce and in France at the Maison & Objets, for one of his collaborations with Seletti.

His latest collection 'Back Home' had a great success and proved the excellence of his technical development and his tender love for shapes and lines, which are getting stronger and purer. Antonio is now willing to expand his ventures and create new partnerships around Europe and the world.
